- Firebase
- GIT
- Hotjar /Analytics
- Slack
- VS code

### EDUCATION

#### Bachelor Of Technology (BCA)

Kamadhenu BCA College, Karwar Affiliated by Karantaka University Dharwad 2017-2020

### PROFILE

Results-driven web developer with 2 years of experience designing and implementing scalable and user-centric web applications. Proficient in front-end and back-end development technologies, including HTML, CSS, JavaScript, and various frameworks and libraries. Skilled in responsive design, cross-browser compatibility, and optimizing web performance. Strong problem-solving abilities and a passion for staying updated with emerging web technologies.

### WORK EXPERIENCE

#### Software Engineer

##### Cendrol IT (April 2022) - Present

- Developed dynamic web applications using **React.js** and **Next.js**, harnessing **ES6+** features and **TypeScript** for robustness and readability.
- Crafted reusable components and optimized their performance in **React.js** and **Next.js** applications, integrating **SEO** best practices to enhance search engine visibility and improve overall application ranking.
- Implemented **Redux** for efficient state management, ensuring seamless data flow and user interactions across the application.
- Utilized data visualization libraries like **AmCharts** to create interactive and visually appealing charts, effectively representing complex datasets.
- Leveraged user behavior analytics tools such as **Hotjar** for in-depth analysis, driving data-informed decision-making processes to enhance user experience and product effectiveness.
- Utilized **Firebase Analytics** to extract actionable insights into user behavior, preferences, and engagement patterns, enabling iterative product improvements and targeted marketing strategies.
- Designed responsive and visually appealing user interfaces using **Tailwind CSS**, **Material-UI**, **Bootstrap**, and other front-end frameworks, ensuring an optimal user experience across various devices and screen sizes.
- Demonstrated expertise in form handling and validation using **Formik**, simplifying the management of form state and input validation within **React.js** applications.
- Ensured adherence to UI design principles and accessibility standards, guaranteeing **user-friendliness** and accessibility for individuals with disabilities.
- Collaborated effectively within teams, demonstrating excellent communication skills and a track record of delivering **high-quality software** solutions within deadline-driven environments.
